* Due to different population/geographical coverage, the 2019 peak and 2020 anticipated peak are not directly comparable.

** Due to different data sources, the 2019 peak and 2020 anticipated peak numbers are not directly comparable.

¹ The month for IPC/CH source is the month of the analysis, followed by the analysis period. For HNO, date refers to report release date

* Due to different population/geographical coverage, the 2019 peak and 2020 anticipated peak are not directly comparable.

** Due to different data sources, the 2019 peak and 2020 anticipated peak numbers are not directly comparable.

¹ The month for IPC/CH source is the month of the analysis, followed by the analysis period. For HNO, date refers to report release date

The forecast 2020 estimates in this table for Djibouti, Ethiopia, Guinea-Bissau, Honduras and Sierra Leone reflect only the furthest forecast available for 2020 – not the anticipated peak period, for which no estimates are available. The estimated peak numbers for Afghanistan, Angola, Eswatini, Lesotho, Mozambique, Namibia, United Republic of Tanzania and Zambia remained unchanged from 2019–2020 as the same analysis was used to assess peak numbers of both years.
